

Approved Long Cross-Countries

The following is a list of approved airports for student cross country flights from Kokomo or Sheridan Airport. The routes listed meet the long solo cross country requirement rules found under FAR 61.609. A flight of at least 150 nautical miles with full stop landings at a minimum of three points, one of which is at least 50 nautical miles between take off and landing locations, must be completed to meet these requirements. Airport identifiers with a (*) indicate tower controlled airports.

Route:	Approx. Distance in Nautical Miles
--------	------------------------------------
